

Local blueberry

Availability:
august to october
*but all year-round when
frozen

Benefits

→ **Because they're like little blue pearls!**

Wild blueberries are an excellent source of antioxidants. In addition to being exquisitely delicious, they embellish a multitude of dishes and freeze very easily.

→ **Because they're part of our history!**

While its twin, the bilberry, originated in Europe, the blueberry is native to North America. Over 60 million pounds of blueberries are harvested in Quebec each year, much to the delight of some 400 blueberry farmers. Eating blueberries is a great way to support local producers.

WHY EAT LOCAL ?

- To gain an awareness and appreciation of the different foods growing around us.
- To purchase produce that's picked when ripe, guaranteeing exceptional freshness.
- To encourage Quebec farmers and support our local economy.
- To preserve our territory and agricultural expertise.
- To minimize the distances travelled by our food, thereby reducing the harmful environmental impacts.
- To reduce purchases of packaged and over-packaged food.
